ADDITIONAL COMMENTS

General

1. This was a Partial inspection, mainly focusing on the "Authorization Constructing and Operating the Requested Miscellaneous Waste Management Units..." letter, dated August 9, 2013 (Doc ID 19484).
2. The service area for waste processing and disposal at this facility is Wayne County.
3. The site is open from 7am to 5:30pm Mon., Tue., Thur., and Fri.; 7am to 5pm on Sat.; closed Sun. and Wed.

Facility Grounds and Structures

1. The facility is fenced and gated to prevent unauthorized entry.
2. Signs are posted and contain all required information.
3. The top and side slopes are being maintained so as to provide positive drainage of stormwater. Slope work is ongoing at the landfill. Multiple heavy rain events have complicated maintenance, soil placement and seeding, on the slope. These efforts are continual. Please be sure to address issues as needed.
4. Edge-of-Waste markers are being maintained on the C&D and Closed MSW areas.
5. The C&D working face is kept small, with soil cover stockpiled nearby. Unapproved waste types are removed and properly disposed or recycled.
6. Borrow Pit #1 is now being utilized for passive composting and inert debris storage, as authorized by the aforementioned letter.
